An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS:

Claim 18, line 2, change "triggering device" to -- trigger device --.

\*\*\* The above change was deemed necessary merely to correct for a typographical error. See Claim 17 for support of the change. The change does not affect the scope of the claim language, and more importantly, the change does not further limit the claim language.

\*\*\*

The following is an Examiner's Statement of Reasons for Allowance: Applicant's amendment and accompanying arguments of 6/1/2004 have overcome the rejection under the Prior Art of Record. There does not appear to be strong motivation for modifying the References so as to achieve the claimed current flow through the triggering device including a zener diode as found in the Independent Claims 1, 13 and 17.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
